DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 12/16/05 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the references listed are US Patent Application Numbers and not published documents. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Claim Objections

Claims 1-13 are objected to because of the following informalities: "The musical information," "the pitch, duration and the lyric" lack antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 19,20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These claims are directed to a computer program, per se, and as such are non-statutory.

Claim Rejections - 35 USC § 112

Claims 19-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 19,20 are unclear, as they are directed to a "program," but the bodies of the claims recite method steps. Correction is required.

Claims 21,22 are unclear, as they are directed to a "computer-readable medium," but the bodies of the claims recite method steps. Correction is required.

Claims 23,24 are unclear, as they are directed to "an autonomous robot apparatus for performing movements," but the rest of the claim does not recite any such functionality. Correction is required.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Claims 1-24 are allowable, or would be allowable if amended to overcome the above deficiencies, as the prior art does not teach a key changing step of changing the key of the musical composition in generating said singing voice; said key changing step changing the key of said performance data, at the time of generation of the singing voice, so that said singing voice will be comprised within the sound range reproducible by said speech synthesizer.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hikawa, Ohta, George, Yamamoto, Okamura, and Gaynor are further cited to show related teachings in the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Donels whose telephone number is 571-272-2061. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lincoln Donovan can be reached on 571-272-2800 ext 37. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
